

Fact Sheet

Creating a healthier world for all...

Purpose

The Joanna Briggs Foundation Inc is a benevolent charitable body established to encourage and foster the interest and financial support of those who wish to advance and promote improved global health outcomes.

Mission

To foster and nurture the interest and financial support of those wishing to improve global health outcomes through:

- Providing quality health care for people across the world (including those in poor and disadvantaged countries)
- Ensuring access to the best, most up to date health information
- Facilitating the education and training of health professionals to become effective clinical leaders

Values

The Joanna Briggs Foundation believes in:

- The right of all individuals to have access to the best possible health care regardless of socio-economic status, age, gender, race, faith or religion
- The responsibility of all healthcare professionals to work within an ethic of care at all times
- The essential nature of providing health care based on the latest best evidence
- The transforming nature of shared knowledge

Global reach

The Foundation supports the endeavours of health professionals through the activities of 54 centres and groups servicing 90 countries across the world.
